

City of Seattle Pre-Application Site Visit Report

March 03, 2011

This report represents a preliminary determination of project requirements based on your Pre-Application Site Visit (PASV). The PASV Field Assessment and Report is completed by DPD site inspectors and is compiled from initial project information submitted by the applicant.

Project Summary

AP/Project No.	6275643	Ground Disturbance	Y
Application Template	BLDG	PASV Required This Permit	Y
Application Type	CONSTRUCTION AND DEVELOPMENT	Date PASV Completed	03/02/11
Category	INDUSTRIAL	PASV Done Under	
DPD Review Type	FULL	Permit Remarks	
Address	2001 W Garfield St		
Location			
Zoning		Applicant	BRITTANI ARD PO BOX 99486 SEATTLE WA 98139 (206) 371-0350
King County APN	7666201516		
Permit Status	Initial Information Collected		
Description of Work	Permit addition already constructed and new addition for cold storage. Pier 91, BLDG #40 C-102	Applicant Email	brit@ardconsulting.net
		Linked AP/Project Nos.	
SDOT Project No			

For detailed zoning information, click the King County APN number above, or visit <http://web1.seattle.gov/dpd/parceldata/> to find zoning details about your address.

Pre-Application Site Visit (PASV) Report

Contact: Roger E Moore, (206) 733-9039, Roger.Moore@seattle.gov

PASV report requirements may be subject to additions, changes, or modifications by the department. The purpose of the report is to alert the applicant that there may be unusual or complex site conditions that trigger requirements from the department regarding this project. **The applicant is responsible for providing all required documents at the intake appointment.** If you have questions about this report or the PASV process, please contact the DPD Site Development Team at (206) 684-8860.

Note: Any project application associated with the development site can utilize the results from this PASV if the application is accepted by DPD within 18 months of the above inspection date. After 18 months, the applicant must apply for another PASV. No extensions will be granted.

The site plan did not include the following existing or proposed elements:

- 1) Spot elevations in lieu of contours at 2'-0 intervals.

ECA Mapping Unit and Type

This project site appears to include the following ECAs and/or buffers:

Liquefaction
Flood prone
Landfill

Earth Disturbance

If temporary cuts greater than 1h:1v will be required in order to facilitate construction activity, please provide a geotechnical engineer's verification that soil conditions allow cuts to stand unsupported. Include detailed cross sections.

If shoring will be required, please provide submittals by geotechnical and structural engineers and show the proposed system on the submitted drawings. Include detailed cross sections.

Potential Impacts to Seattle Parks Property

Project is adjacent to parks or park boulevards.

Tree Protection

Existing trees appear to be shown accurately on the site plan

Construction Stormwater Control

All projects with earth disturbance, regardless of size, require temporary and permanent stormwater control in accordance with the Construction Stormwater Control (CSC) Technical Requirements Manual (DR 16-2009, Volume 2). The CSC Best Management Practices (BMPs) noted below can be found in the Construction Stormwater Control Technical Requirements Manual, available online and from DPD's Public Resource Center.

Show the following on the CSC/Post Construction Soil Amendment Plan:

Place compost socks, compost berms, filter fabric fencing, straw bales, straw wattles, or other approved perimeter control BMPs to eliminate construction stormwater runoff.

Show the location of a stabilized construction access to the site; show methods to eliminate uncontrolled conveyance of mud and dirt into the right of way (ROW).

Place silt-trapping inserts in receiving catch basins located within 10 feet of construction entrance.

Cover bare soil with compost blankets, straw, mulch, matting, or other approved equal to control construction stormwater runoff.

Cover stockpiles and bare slopes with compost blankets, tarps, matting or other approved equal to control construction stormwater runoff.

A First Ground Disturbance inspection is required before any ground disturbance related to this permit, including demolition, tree cutting, clearing, grubbing, and grading. After your permit is issued, schedule an inspection by calling (206) 684-8900 or online at: <http://web1.seattle.gov/DPD/InspectionRequest>

Inspectors Notes

Include earthwork calculations with submittal. Indicate total cut quantity and total fill/backfill quantity.

Standard Submittal Requirements for Projects in an ECA

Provide a topographic survey with 2-foot contours on and within 25-feet of the property, stamped by a licensed land surveyor (see SMC 25.09.330A)

Site is mapped as liquefaction prone. Geotechnical report and/or structural calculations are required to address liquefaction potential and, if needed, mitigation (see SMC 25.09.100)

Site is located within the 100-year flood hazard area. Refer to SMC 25.09.120 and SMC 25.06 as well as the Floodplain provisions of the Seattle Building Code or Seattle Residential Code for details. The lowest floor elevation of any structure located in a flood-prone area shall be no less than 2 feet above the 100-year flood elevation. For projects adjacent to Puget Sound (Puget Sound floodprone area), the minimum base flood elevation (BFE) is 10 feet - National Geodetic Vertical Datum.

Site is located within an identified flood prone area regulated by SMC 25.09 as an ECA. The lowest floor elevation of any structure located in a flood-prone area shall be no less than 2 feet above the 100-year flood elevation. Refer to SMC 25.09.120 for the further details.

Site is mapped as being on an abandoned landfill. Report required by a licensed engineer to provide requirements for prevention of damage from methane gas buildup, subsidence and earthquake induced ground shaking.

Applicant Next Steps

1. For questions on permit application process, please contact the Applicant Services Center (ASC) at 206-684-8850.
2. Review the requirements set forth in this report.
3. Use Client Assistance Memos (CAMs), checklists and standards, and 5 Steps for a Successful DPD Application Submittal (available on the DPD website) for additional information.
4. When all issues have been addressed, you may schedule an intake appointment with DPD. **Please bring a copy of this report to your intake appointment.**
